

HILL ORCHARD

REQUEST FOR PROPOSALS (RFP)

TO MANAGE AND OPERATE

**THE HILL ORCHARD AND HILL ORCHARD FARM STAND AND PICK YOUR
OWN APPLES ACTIVITY**

OWNED BY TOWN OF WESTFORD

FEBRUARY, 2015

INTRODUCTION TO THE REQUEST FOR PROPOSALS FOR THE TOWN OF WESTFORD'S HILL ORCHARD AND FARM STAND

The Westford Conservation Commission, which has responsibility for the Hill Orchard property, has received notice from the current operator, Anthony Levick of Monadnock Berries, Troy, New Hampshire, that he will not be seeking to renew his contract to manage the orchard and farm stand.

The town is seeking a new manager of the approximately 20 acre orchard consisting of approximately 1500 trees, primarily apples, but also a substantial selection of peaches, as well as some plums, pears, nectarines and pluots. Total yield was over 70,000 pounds of apples and over 20,000 pounds of peaches in 2012 and 2013. The property includes two buildings: 36' by 72' farm stand building, which includes an approximately 18' by 50' coldstore room, and a 36 by 22' foot sales room, and other storage, as well as two toilets with sinks and hot water. There is also a 24' by 36' tractor and storage shed. In addition there are approximately 8 parking spaces in front of the building

The proposed deal is not a lease, but a three year contract. It calls for the manager to maintain and harvest the orchard, performing ongoing pruning, and integrated pest management and other necessary operations, such as planting of new trees, and to operate the farm stand for retail operations, between roughly August 1 and Thanksgiving of every year. The town also wants the manager to run a pick your own apples activity. As compensation the manager receives all the fruit and the use of the farmstand (from which they can market other produce from other operations they may maintain), the coldstore and other facilities and limited equipment on the site. It is expected the manager will provide most of the necessary equipment, including a tractor, as well equipment necessary for the farmstand. The previous manager has some equipment, including a tractor and pesticide sprayer, which he has indicated he is willing to talk about selling to any interested party. The manager will be responsible for the costs of utilities at the farm stand, including, electric, water and telephone. The manager would also be responsible for the cost of any repairs and maintenance of any of the town's equipment. The manager must also provide an insurance policy, which is described in the sample agreement attached to the Request for Proposals, which provides all the details of the proposed deal.

The town is responsible for the cost of maintaining the farmstand and tractor shed, and will pay for new orchard replacement trees .

Submission of a proposal is in two parts as detailed in the RFP. The first part of the proposal shall cover potential operator's experience and qualifications. As to the second part, the price proposal should specify how much annual cash compensation the manager requires, which is in addition to the fruit that they can grow and use of the facilities.
